Brass Pickup Rates and Info

Dated: AUGUST 2018

Mixed Brass, with no steel/aluminum/trash/live rounds/ or .22 casings:
\$1.57 per pound

Mixed Brass, with no steel/aluminum/trash/shotgun hulls:
\$1.50 per pound

Mixed Casings, with steel/aluminum/trash/shotgun hulls:
\$1.35 per pound (for the usable brass in the mix) does not include .22 casings.

Paid price for .22 casings, excluding trash:
\$1.18 per pound

Paid price for steel casings:
\$0.00 per pound

Paid price for aluminum casings:
\$.08 per pound

Caliber sorted centerfire casings:
\$1.60+ per pound (varies on calibers/quality)

Scrap/Unusable Brass (with no steel/aluminum/trash/live rounds):
\$1.30 per pound

Trade mixed brass for any FedArm product/credit:
\$1.70 per pound (or 8.3% over cash price)

Minimum drop is at 500 lbs. We will ask some details about the brass (i.e. its mix, its source, and its condition).

Freight is negotiable:

For small drops you cover cost, for medium drops we split the freight cost, and for steady **4,000+ lb. loads we can offer to cover freight.** We ask that you build up as much as possible before the drop. Our freight rates average around \$0.11 per pound within the continental USA.

If our rates are low, return your offer and we will put you on a secondary pickup list. Note the market is flushed with brass, and we must charge market rates to compete.

Ask us about trading brass for ammo and our range programs.
